Access Services and ALTEC Services Announce Affiliation

Human Service Providers Join Together to Strengthen Community Supports

(Montgomery County, PA) Access Services and ALTEC Services (ALTEC) have announced an official affiliation taking effect on July 1, 2019. This affiliation builds upon a long-standing relationship between the two organizations. The Boards and Executive management staff of both organizations are excited about this strategic affiliation and believe it will strengthen and sustain each organization in this highly regulated and complex environment.

ALTEC Services offers employment and day services which are highly regarded and sought after by individuals and families in southeastern Pennsylvania. ALTEC has a strong reputation in the field and are known for their Community Participation model of delivering quality services both in and out of the facility. Altec is led by Deb Kunsch, Co-Founder and Executive Director.

Access Services was founded in 1976 by Christian social workers with a vision to fill gaps in our service system for individuals with intellectual disabilities. Great value was placed on providing creative and innovative ways to support each person, so he or she could pursue their dreams and live a fulfilling life in the community. Today, Access Services has expanded to include community-based children and family services and adult behavioral health services in 10 counties in eastern Pennsylvania. Access Services is led by Rob Reid, President & CEO.

Rob Reid stated, "I have personally known and worked with Deb Kunsch, the ALTEC Executive Director, for close to 40 years. I have such high regard for her leadership and dedication to those they serve. The ALTEC staff are also mission minded and committed to quality services. Our respective organizational missions are aligned and the approach we use to support people and families is reflected in a high degree of customer satisfaction."

This affiliation will strengthen each organization's strategic position through greater service and support offerings, expanded geographic locations, and enhanced talent.
